DETAILED ACTION

This office action is in response to the Amendment, Remarks, and Declaration filed 27 October 2004.

All previous rejections are withdrawn.

Allowable Subject Matter

Claims 5-7 and 19-27 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches nor suggests the claimed method of injection molding a molded article having a hollow portion including injecting a first resin, initiating injection of a second resin without bringing the second molten resin into contact with the first molten resin, and introducing a pressurized fluid into the second resin to form a hollow portion only in the second resin and to bring the second resin into contact with the first resin.

Claims 8-18 have already been indicated allowed (see paper mailed 28 June 2004), but the reasons are provided here for applicant's convenience: The prior art of record neither teaches nor suggests the claimed method for injection molding an article having a hollow portion wherein the first-molten-resin injection portion and the second-molten-resin injection portion is disposed on opposite sides of a movable partition member, respectively, in combination with the other specifically-claimed method steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Bowser on 5 November 2004.

The application has been amended as follows:

The last five (5) words of the title ("AND AN INJECTION-MOLDING APPARATUS") have been deleted.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monica A Fontaine whose telephone number is 571-272-1198. The examiner can normally be reached on Monday-Friday 7:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mike Colaianni can be reached on 571-272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
